

Our 10 Ha Project - Progress in motion

CURRENTLY ON OUR 10 HA

Painted Building & Concrete Progress

We are grateful to share the visible progress on site! The newly painted building and completed concrete work mark a significant step forward for our 10 - hectare vision. Each layer added represents God's Faithfulness and the generosity of those who continue to support this mission.

Recent Updates:

Construction in Progress

Work is actively underway as the team continues building with dedication and excellence. It's inspiring to see the vision take shape day by day, as hands come together to build a place that will impact lives for generations to come

Pouring of the 16 Concrete slabs

The pouring of the 16 concrete slabs lays a strong foundation for what is to come.

We celebrate this moment as a symbol of stability and growth, trusting that what is being build here will stand firm and serve the community for years ahead.

Tanya, Thys & Hans

A special moment captured, Hans whose generous donation of the land has made this entire project possible. We honour and thank him for his incredible heart and partnership in advancing the vision of Ruach Ministries. This is more than a project- it is a legacy in the making.

A FUTURE BEING SHAPED TODAY

The images captures a quiet moment in our production yard. These concrete blocks represents more than just building materials, they represent the dedication of our team, the stewardship of our resources, and Ruach (Breath of God) giving life to a new endeavor.

Each block is mixed, molded, and set with percision and prayer.

This venture is the “engine” that will help fuel our mission. Every hour spent in the yard and every row of blocks carefully cured and kept wet is a seed planted for the future.

We invite you to continue standing with us as we build this vision together.

A MILESTONE FOR RUACH MINISTRIES

Unless the Lord builds the house, the builders labor in vain.
Psalm 127:1

We are overjoyed to share a powerful testimony of God's provision and the fruit of our collective vision.
OUR VERY FIRST BLOCKS HAVE BEEN SOLD.

Seeing that first pallets loaded and ready for delivery is more than just a business transaction; it is a tangible sign of firm foundation being laid.

At Ruach we believe in the "Breath of Life" moving through everything we do. By launching this venture, we are not just making blocks; we are building a sustainable future, creating opportunities, and establishing a resource that will help our community grow.

**WE ARE OFFICIALLY
OPEN FOR BUSINESS!!**

As we step into this new season of commerce and stewardship, we recognize that we cannot do this without the hand of God and the support of our family in faith. We invite you to stand in the gap with us as we move forward.

Thank you for being part of this journey. Every block sold is a step forward toward a stronger, more self-sustaining ministry.
